PROFILE SUMMARY

Talented DevOps Engineer with 4+ years of experience, specializing in handling production-grade clusters and applications across multiple cloud platforms (AWS, GCP, Azure). Expert in maintaining ISO and GDPR compliance for critical workloads. Proven ability to reduce deployment times by up to 40% through automation and GitOps principles. Seeking a challenging role to build high-performance, resilient, and secure cloud-native systems.

WORK EXPERIENCE

DevOps Engineer Improwised Technologies Pvt Ltd | Rajkot, Gujarat Nov 2022 – Present

- Led the complete migration of a multi-tenant SaaS platform from Azure to Google Cloud (GCP), enhancing scalability and performance.
- Engineered the new GCP-native architecture, implementing GKE, NATS.io for pub/sub, and Neo4j Aura for the graph database layer.
- Architected and provisioned secure, multi-environment AWS, Azure, and GCP infrastructure using Terraform and Terragrunt.
- Built and maintained automated Kubernetes clusters (AKS, EKS, GKE) with secure secret encryption via Azure Key Vault, Google Secret Manager, and Mozilla SOPS.
- Implemented robust CI/CD pipelines using GitHub Actions, FluxCD, and Drone CI, reducing deployment time by 40%.
- Designed and implemented disaster recovery solutions with Velero to ensure **GDPR, SOC2 and ISO compliance** for critical workloads.
- Migrated multi-tenant applications from legacy AWS environment to Azure AKS, significantly improving scalability.
- Integrated GitOps workflows using Helm and FluxCD to streamline microservices deployment.
- Configured comprehensive monitoring with Prometheus, Grafana, Google Cloud Monitoring, and Azure Log Analytics.
- Provided 24/7 on-call support to troubleshoot and resolve critical infrastructure issues.

Associate Analyst GlobalLogic Pvt Ltd | Hyderabad, Telangana Mar 2022 – Oct 2022

- Performed data analysis and maintained process documentation in a cross-functional support role.
- Liaised with project teams to gather technical requirements and deliver timely analytical insights to stakeholders.

DevOps Trainee Cloudriaze Technologies Pvt Ltd | Hyderabad, Telangana Jan 2022 – Mar 2022

- Gained hands-on experience with fundamental DevOps tools and practices.
- Assisted in setting up CI/CD pipelines for small projects.
- Participated in cloud infrastructure provisioning activities.

PROJECT HIGHLIGHTS

SaaS Platform Migration from Azure to GCP

- Led the end-to-end migration of a multi-tenant SaaS application to a new, cost-effective, and scalable infrastructure on Google Cloud Platform.
- Architected the new environment using GKE, Cloud SQL, NATS.io for messaging, and Neo4j Aura for the graph database.
- Automated infrastructure provisioning with Terraform and managed deployments via a FluxCD-based GitOps workflow.

Multi-Tenant Azure Infrastructure (SaaS)

- Deployed scalable Azure AKS clusters integrated with ACR, Key Vault, and Blob storage.
- Automated application deployments onto AKS clusters using FluxCD (GitOps).
- Secured secret management by implementing self-hosted GitHub runners and integrating with Azure Key Vault.
- Set up auto-scaling with KEDA based on AWS SQS metrics to handle variable workloads efficiently.
- Established disaster recovery protocols using Velero for production resilience.

Cloud-Native Messaging Platform Upgrade

- Successfully upgraded a production Apache Pulsar cluster from v2.7 to v2.10 with zero downtime.
- Managed container builds and automated deployments via CircleCI and Kubernetes.

SaaS Application K3s Cluster Upgrade

- Engineered the transition of a production K3s cluster from a single-master to a highly available multi-master setup on AWS.
- Resolved node termination issues caused by high CPU usage by implementing robust CloudWatch monitoring.

KEY SKILLS

- AWS (EC2, VPC, S3, IAM)
- Azure & GCP
- Kubernetes (AKS/EKS/GKE)
- Docker
- Terraform / Terragrunt
- Ansible
- GitHub Actions
- FluxCD & ArgoCD
- Helm / Kustomize
- Prometheus / Grafana (Loki)
- Python / Shell Scripting/Nodejs
- Velero (DR)
- PostgreSQL(Hosted/Self-Hosted)
- MYSQL/MariaDB(Hosted/Self-Hosted)
- Neo4jAura(Hosted/Self-Hosted)
- Frappe/ERPNext
- AWS LightSail
- ISO/SOC2/GDPR Compliance

EDUCATION

B.Sc. (MSCS) Nishitha Degree College 2018 – 2021

Intermediate (MPC) Vijetha Junior College 2016 – 2018

SSC Sai Concept School 2015 – 2016

CERTIFICATIONS

AWS Solutions Architect Associate – Udemy

Docker: Basic to Advanced Udemy
